Roger E. Howe, *Yale University*
Michael Orrison, *Harvey Mudd College*
Lisette G. de Pillis, *Harvey Mudd College*
Jill Pipher, *Brown University*
Fadil Santosa, *University of Minnesota*

Undergraduate Texts in Mathematics are generally aimed at third- and fourth-year undergraduate mathematics students at North American universities. These texts strive to provide students and teachers with new perspectives and novel approaches. The books include motivation that guides the reader to an appreciation of interrelations among different aspects of the subject. They feature examples that illustrate key concepts as well as exercises that strengthen understanding.
